Headquarters U.S. Air Force

Integrity - Service - Excellence

AFCEE Industry Day

Performance Based Remediation

Air Force Center for Engineering and the Environment

Welcome & Opening Remarks

28 July 2011

U.S. AIR FORCE

U.S. AIR FORCE

Air Force Policy 24 Feb 11

- New Air Force goal shifts program execution focus from process to results
  - Reducing costs
  - Speeding cleanup
- Policy is a preference for
  - Fence-to-fence contracts (cost and time)
  - Accelerated site completion (cost)
  - Remedial objectives based on total life cycle (cost)
  - Performance-based acquisition (cost and time)
- Compliance with existing legal requirements and agreements (given)

U.S. AIR FORCE

WERC09 PBR Industry Day

- PURPOSE
- COMMON OBSERVATIONS
- FUTURE PBRs

U.S. AIR FORCE

WERC09 PBR Industry Day Responses to Contractor Input

- AFCEE will allow a 15 page addendum (front and back - for a total of 30 pages) to the technical proposal to provide assumptions for life cycle cost calculations
- AFCEE is working out a process where Past Performance Questionnaire (PPQ) will be posted on a password protected SharePoint site so that contractors may reference previously submitted PPQ, rather than submitting new PPQ for every PBR
- PBR Contractors will be provided the Programming Documents for the life of the PBR
- PBR Contractors will be provided the Life Cycle Cost ROM (disclaimer that data may not be accurate)
- PBR Contractors will be provided the Current Estimated Date for Site Closeout

THANKS!
